INSTRUCTION, CONDITIONS, AND NOTICES TO FIRMS

Introduction

This request for quotation contains evaluation factors for the Janitorial Services identified in the enclosed Statement of Work. The Government reserves the right to make an award, or multiple awards, as determined to be the most advantageous to the Government based on Best Value Evaluation Factors.

The following factors shall be used to evaluate offers:

In accordance with the provisions contained herein the Government will select the most advantageous offer based on the merit of past performance, and cost. To be considered for award, responses shall conform to the terms and conditions contained in this solicitation. If multiple locations are identified contractors are not required to bid on all locations however, each location must have a price submitted for both base and option year(s). The evaluation process used to determine the most advantageous offer is as follows:

1. Selection Board: The Contracting Officer may establish a selection board to conduct an evaluation of each quote received in response to this solicitation. The evaluation will be based exclusively on the merits and content of the quote. The Board will not consider any information incorporated by reference or otherwise referred to by the firm. The individual evaluations regarding the firms Past Performance will be used by the Board to determine an overall rating.

The following rating system will be used: 1) Green- evaluations of "Excellent" on all elements, 2) Amber – evaluation containing "Good" on any element, and 3) Red – evaluation containing "poor" or "unsatisfactory" on any element.

2. Evaluation Factors. In descending order of preference, based on the criteria below, overall ratings are evaluated as follows:

A. Past Performance/Experience. The questionnaire, incorporated herein, will be used to evaluate your past performance. The questionnaire covers four elements, listed in descending order of preference: 1) Quality of Service, 2) Timeliness of Performance, 3) Timeliness of Corrective Actions, and 4) Customer Satisfaction. Your firm must provide the information on the questionnaire to at least three references that can evaluate your firm's performance for janitorial services accomplished within the last five (5) years. The references will provide a written response to the questions using the following terms: "excellent", "good", "fair", "poor", or "unsatisfactory" to describe your work. All completed questionnaires shall be submitted via fax or U.S. Mail from the individual completing the evaluation. All responses must be received in this office not later than the closing date and time for the solicitation. All responses must identify your company name and the solicitation number. The individual completing the questionnaire must identify their company name and address. Each questionnaire must be signed and dated; the evaluator's name and telephone number must be clearly printed. Note: References may be contacted.

Definitions of above evaluation ratings:

Excellent: Exceeds over and above requirements

Good: Meets and fairly exceeds requirements

Fair: Meets requirements

Poor: Meets below requirements

Unsatisfactory: Requirement not Met

3. **Price.** Price is considered secondary to the past performance and will be independently evaluated to determine whether the proposed price is reasonable and to aid in the determination of the offeror's understanding of the work and ability to perform the contract. Price will be evaluated inclusive of the optional year(s).

4. **Best Value Analysis.** The Government is more concerned with obtaining superior technical features than with making award at the lowest overall cost to the Government. In determining the best value to the Government the tradeoff process of evaluation will be utilized. The tradeoff process permits tradeoffs among price and non price factors and allows the government to consider award to other than the lowest priced offeror. You are advised that greater consideration will be given to the evaluation of the contractors past performance rather than price. It is pointed out, however, that should technical competence between offerors be considered approximately the same, the cost or price could become more important in determining award. It is the intent of the Government to make award based upon initial offers, without further discussions or additional information.

5. **Basis of Award.** Award shall be made to a higher rated offeror and may be awarded to a higher priced offeror if the offer is sufficiently more advantageous to the Government, in as much, to justify the payment of a higher price. The degree of importance of cost as a factor shall become more important when past experience and performance are relatively equal in merit. Prices quoted for this project reflect all cost associated with the work required to complete the tasks identified in the Scope of Work and will be evaluated to reflect the contractor's understanding of the service requirements, as well as the potential to provide the best value to the Government.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination

shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
